- Deletion of regulation 10
- 4.** The principal Regulations are amended by deleting regulation 10 and substituting for it the following-

GN NO. 938 (Contd)

Calling Line
Identification

10. A licensee shall have the following obligations with respect to Calling Identification presentation:

- (a) provide Calling Line Identification (CLI) Facilities, and enable them by default, unless they can demonstrate that it is not technically feasible viable to do so in order to ensure that call recipients can identify the person calling them and choose whether or not to accept the call;
- (b) ensure that a CLI data which provides for or associated with a call, has a valid, routable telephone number which uniquely identifies the caller;
- (c) take all reasonable steps to identify calls, other than calls to life and safety numbers, in relation to which invalid or non-routable CLI Data is provided and prevent those calls from being connected to the called party where such calls are identified;
- (d) for SMS delivery where the SMS sender is identified by a number without name, the name shall include information that identifies the sender.

Electronic and Postal Communications (Electronic Communication Numbering and Addressing)
